ABOUT
US:

MEX
Monari Express
Delivering the difference

OUR VISION

To be a trusted fully integrated business logistics provider in Uganda.

OUR MISSION

To deliver value to our customers by providing the most reliable and efficient logistics solutions.

01

Honesty, Fairness, Respect & Safety. We are individually accountable and collectively responsible.

02

We strive to be successful without compromising the quality of our customer's solutions.

03

We invent & aspire to continually improve our solutions.

04

We foster a culture of teamwork, inclusion, leadership & growth.

05

We strive to create a safe & sustainable environment and to improve the lives of our community.

OUR PRINCIPLES & VALUES

“

Our continual investment on end-to-end temperature control solutions makes our shipments the most reliable in Uganda.

WHY
US:

MEX
Monari Express
Delivering the difference

We are an East African company with personnel with years of experience and strong links with local authorities which we leverage to provide our customers with the best service.

LOCAL EXPERTISE

REGIONAL COVERAGE

Our network of offices throughout the region (TZ, KE & UG) provides our customers with a seamless solution and enables complete integrity and full chain of custody from origin to destination.

Through strategic partnerships with first class logistic providers we offer an end-to-end supply chain to/from anywhere in the world.

GLOBAL REACH

CUSTOMIZED SOLUTIONS

We offer a full range of logistics services enabling us to synchronize transport modes and develop the optimal supply chain for your company.

Our process driven approach, commitment to continuous improvement, and proactive communication sets FiT apart from the competition and ensures that we exceed our customers expectations.

CULTURE OF EXCELLENCE

OUR ADVANTAGE

“

We don't just synchronize deliveries. We synchronize transportation around the world.

IOR/EOR (IMPORTER/ EXPORTER ON RECORD)

A unique service where MEXUG are the legal entity importing (and holding) goods in the country while the client remains in control. This capacity is also available in our offices in Kenya and Tanzania.

- This is a distributor model that global suppliers can use to bring stock close to the market.
- It is very ideal for spare parts logistics i.e close to market positioning such as ICT customers are an ideal target for IOR services.
- Instant product access throughout the region.
- Direct access to markets without a local distributor.
- Full visibility and control of stock in the country.
- To operate without maintaining complex legal entities in a foreign environment.
- To focus on core business while we comply with all legal and tax requirements.

11
SPECIALITIES

Medical devices & diagnostics

Our solutions are optimized for cost efficiency and accuracy, with a specially trained team that is available 24/7.

Pharmaceutical

We have a full range of distribution solutions across all channels and categories.

Vaccines

Our cold temperature control capabilities ensure the integrity of vaccines to the last mile.

Public health

We offer tailored distribution and brand management services.

Animal logistics

We offer transport for live domestic animals and agricultural insects.

THE 12 PROCESS

Before the import:

- Prepare all necessary documentation.
- Ensure that the shipment matches the standards and laws of the country.

On the way:

- Arrange delivery and tracking of the shipment by any transport.
- There is no need to have representatives in the country of import.

After the import:

- Ensure all custom's standards compliance.
- Provide all necessary documentation and arrange payment of the taxes and customs.
